# PROGRAM OVERVIEW

TAP is shifting its format - responding to the shift in how we gather and the needs of our Teaching Artists Community. Our program will now run from October 2022 to May 2023, in a hybrid format. Some of our community building focused sessions will be in person, live streamed for participants outside of NYC. The remainder of our sessions will be virtual on Zoom. Internships in NYC public schools\* will be in person while Fieldwork sessions will be a mix of in person and virtual. Participants outside of NYC will still be able to fully engage in the program, although their participation in the Internship and Fieldwork component will take a different form.

The focus of each session is “what is teaching artistry now?”. This includes, but is not limited to, workshops on virtual learning, power & privilege, facilitation, career development, and internships focused on applicable classroom skills, building a portfolio of work, administrative skills and experience.

## ELECTIVES

Opportunities for further enrichment will be available to trainees through elective workshops provided by the TAP Cohort.

## FIELDWORK

Trainees will have the opportunity to participate in a fieldwork track of their choice. Dates and times for the fieldwork will be determined in partnership with the trainees - tailored to fit their schedule.

## INTERNSHIPS

Trainees will be responsible for completing a minimum of four (4) sessions for their in-school or afterschool internship.
